As a Data Science graduate currently working in digital marketing, I bridge the gap between data and business needs by turning sales, campaign, and customer data into actionable insights. I have hands-on experience in analyzing marketing performance, managing marketplace operations, and supporting business decisions through data analysis using Python, SQL, and Power BI. Through my experience in e-commerce and digital campaigns, I developed a strong understanding of customer behavior, business operations, and data driven problem solving. I am eager to continue growing in data and business analytics while contributing meaningful insights that support business performance and growth.

EDUCATION

UNIVERSITAS PEMBANGUNAN NASIONAL “VETERAN” JAWA TIMUR – Surabaya, East Java

August 2021 – September 2025

Graduated in Data Science

- GPA: 3.77/4.00

SMA NEGERI 1 DRIYOREJO – Gresik, East Java

July 2018 – August 2021

Graduated in Mathematics and Natural Science (MIPA)

- GPA: 89,72

EXPERIENCE

DIGITAL MARKETING STAFF – Gresik, East Java

January 2025 – Present

PT Gajah Mitra Cemerlang

- Analyzed sales and marketing campaign performance across Shopee Ads, voucher programs, and Google Ads using CTR, conversion rate, and ROAS metrics to identify optimization opportunities and improve campaign effectiveness.
- Monitored Shopee marketplace performance, transaction trends, and customer purchasing behavior to support data-driven business and promotional strategies.
- Coordinated purchase order processing with the production division to ensure timely order fulfillment and maintain operational efficiency.
- Handled customer communication through WhatsApp and offline meetings for project discussions, business requirements, and relationship management.
- Collaborated with cross-functional teams to improve promotional execution, operational workflows, and customer experience through analytical and business-driven approaches.

DATA SECURITY & IT GOVERNANCE INTERN – Surabaya, East Java

March 2024 – July 2024

PT PAL Indonesia

- Implemented the COBIT 5 framework to support IT governance improvement and strengthen alignment between business objectives and IT processes.
- Analyzed IT governance and audit findings to develop actionable recommendations that improved operational effectiveness and compliance readiness.
- Prepared IT audit reports and collaborated with related stakeholders to ensure alignment with industry standards, internal policies, and compliance requirements.

DATABASE DEVELOPER OF PST DIGITAL – Surabaya, East Java

August 2023 – January 2024

Badan Pusat Statistik Kota Surabaya

- Designed and optimized database schemas to support efficient data management, system scalability, and business requirements.
- Managed database development and maintenance processes to ensure data integrity, system reliability, and operational continuity.
- Developed efficient SQL queries and database solutions to improve data processing performance and support seamless system functionality.

ORGANIZATION

SECRETARY OF RELATION AND COORPORATION DEPARTMENT – Surabaya, East Java

April 2024 – March 2025

Badan Eksekutif Mahasiswa Fakultas Ilmu Komputer

- Created and managed project documents to keep project information organized and well documented.
- Assisted in project scheduling and deadline tracking to help ensure tasks were completed on time.
- Organized project meetings, prepared agendas and meeting minutes, and supported project evaluations to improve progress tracking and decision making processes.

EXTERNAL AFFAIRS STAFF – Surabaya, East Java

April 2023 – March 2024

Badan Eksekutif Mahasiswa Fakultas Ilmu Komputer

- Served as a liaison between BEM FASILKOM and external parties to support communication and collaboration activities.
- Built and maintained relationships with student organizations within and outside Universitas Pembangunan Nasional “Veteran” Jawa Timur to support networking and interorganizational cooperation.

INTERNAL AFFAIRS STAFF – Surabaya, East Java
Himpunan Mahasiswa Sains Data

- Strengthened relationships and collaboration among Data Science students across different academic generations at Universitas Pembangunan Nasional “Veteran” Jawa Timur.

January 2022 – December 2022

COURSE

DATA ANALYST – Surabaya, East Java
Smartpath

- Learned data analysis techniques and gained hands-on experience in data preprocessing, visualization, and modeling using industry-standard tools and methodologies

October 2024 – January 2025

DATA SCIENCE – Surabaya, East Java
ID Camp

- Learned about data science, including the power of data, data science fundamentals, data analysis techniques, and machine learning.

November 2023 – December 2023

CERTIFICATE

DASAR DATA SCIENCE – Dicoding
Issued : May 2025, Expires : May 2028

ENGLISH PROEFICIENCY TEST – Language Center
Score : 453, Issued : February 2025, Expires : February 2027

JUNIOR WEB PREOGRAMMING – Badan Nasional Sertifikasi Profesi
Issued : December 2024, Expires : December 2026

DATA ANALYST BOOTHCAMP – Smartpath
Issued : November 2024

PAPER PUBLICATION

HYBRID PREDICTION MODEL FUZZY TIME SERIES – LSTM ON STOCK PRICE DATA WITH VOLATILITY VARIATION – Journal of Binary Digital Technology (Bit-Tech)
December 2025

- Proposes a hybrid model combining Fuzzy Time Series and LSTM to improve stock price prediction under market uncertainty.
- Compares model performance on high-volatility vs. low-volatility datasets from the Indonesian stock market.
- Measured accuracy using MAE, MAPE, and cross-validation, with better results on low-volatility data.

PENGEMBANGAN PROSES BISNIS PELAYANAN STATISTIK TERPADU DIGITAL BADAN PUSAT STATISTIK KOTA SURABAYA MENGGUNAKAN METODE PROTOTYPING – Journal of Technology and Informatics (JoTI)
April 2024

- Application of prototyping methods to improve business processes in government agencies.
- Identification of insights and best practices.
- Assistance for other organizations in implementing digital transformation strategies.

KONSEP BELA NEGARA UNTUK MEWUJUDKAN RASA NASIONALISME DALAM PERSPEKTIF MODERN – Seminar Nasional Sains Data (Senada)
November 2022

- Discusses how Indonesian nationalism, based on solidarity and unity, historically led to independence.
- Examines the need for modern national defense to adapt to global changes and threats, emphasizing Pancasila and the 1945 Constitution, and addressing non-military threats like misinformation and corruption.
- Highlights the responsibility to maintain Indonesia's integrity and unity through mutual trust and cooperation between the government and citizens for effective national defense.

SKILLS AND INTERESTS

Data Analyst
Data Scientist
Data Engineer
General Tools
Interests

: Data Cleaning and Preprocessing, Exploratory Data Analysis, Statistical Analysis, Data Visualization, Business Intelligence, Forecasting, Clustering, Scraping.
: Machine Learning, Deep Learning, Artificial Intelligence, Natural Language Processing, Feature Engineering, Hyperparameter Tuning.
: Database Management, ETL Process, Data Pipeline Development.
: Microsoft Word, Microsoft Excel, Microsoft Power BI, Tableau, Python, Pentaho Data Integration, Google Colaboratory, Google Looker Studio, VSCode, Jupyter Notebook, MongoDB, PostgreSQL, MySQL.
: Predictive Analytics, Time Series Forecasting, Stock Market Analysis, Machine Learning, Data Visualization, Internship, Volunteer.
